

So you want to go racing!

BUT!!!!!!!

- **Motorcycle racing is way too expensive!**
- **I have to have the latest R1,CBR or ZX to go racing!**
- **Motorcycle racing is dangerous!**
- **I'm not good enough!**
- **Only males race bikes!**

All the statements above are false with the exception of one!

.....Yes motorcycle racing is dangerous!

If you really want to race a motorcycle you can, so what do **you need** to race?

A bike, it doesn't matter what bike.

It could be a \$500.00 shitter or your glamour of a road bike. It's up to you!

Come to a SRCT or TMCC **ride day** and have a chat with some of the members, find out how much fun you can have.

To race you will need a

- **1698 approved helmet**
- **a back protector**
- **boots, gloves and set of leathers.**

Your bike will need the following things **lock wired**.

- **Sump plug**
- **Oil filler cap**
- **Oil filter**
- **Radiator cap**

You will need to take the following **things off** your bike.

- **Centre stand** (if your bike's that old)
- **Side stand**
- **Indicators**
- **Head light**
- **Tail light**
- **Number plate bracket**

You will need to replace the **coolant** with water.

That's just about it! The most important thing is to have **fun!...**

And racing a bike is just about the most fun you can have with your **pants on!!**
